- Coverage can grow with your business

Benefits

- Owners get long-term protection and peace of mind
- Coverage can be extended from 10 to 20 years and warranty coverage can be added to building additions provided by Varco Pruden

10 YEAR OR 20 YEAR MATERIAL AND LABOR WARRANTY AVAILABLE ON SSR™ AND SLR II™ ROOF SYSTEMS

OPTIMA WARRANTY

With the Optima Roof Warranty, VP Buildings offers you the best material, manufacturing, design and installation standards backed by an outstanding 10 year or 20 year warranty. The warranty is an "original cost" material and labor warranty available for VP SSR™ and SLR II™ roof systems. This warranty covers not only the roof panel system, but also VP furnished roof curbs, pipe penetrations and flashing.

The Optima Warranty is simple. VP Buildings, through its authorized builders, agrees to repair or stop any roof leaks in the building which occurs due to ordinary wear and tear by the elements for a period of 10 or 20 years depending on the warranty selected.*

With the Optima Warranty program, your roof is installed under the direction and continuous supervision of Certified Optima Roof Installers. These factory trained and certified installers will be performing detailed roof inspections prior to, during and immediately after installation to ensure that your roof meets the highest weathertightness standards. Additionally, each roof will have a minimum of two separate inspections performed by VP representatives to further ensure that your roof meets or exceeds all VP weathertightness standards.

Once VP and our Certified Optima Roof Installers complete their work on your VP roofing system just give the roof proper maintenance, and your VP roof system will provide decades of worry-free protection.

**See full warranty for details of limits of liability, exclusions (including gutters, valley gutters, internal gutter liners, skylights, or vents), inspection and maintenance requirements.*
